

Washco Revalue Site Coded Value Adder (CVA) Instructions

To add value to your SmartCard:

1. Click  and follow the on-screen instructions to assign your card to your account.

**Make sure that your CORRECT smartcard serial number is displayed.
Revalue codes purchased for the wrong smartcard will NOT work at the CVA.**

2. After you have completed your purchase, your revalue code will appear on the screen. You can find all purchased codes by clicking the "CODES" link on your profile. You can also have your code emailed or sent via text message if you have provided that information in your account profile.
3. Take your smartcard and revalue code to the CVA to retrieve value.

***PLEASE NOTE:** Once value is added to your smartcard, it remains on your smartcard until depleted by using the washers/dryers. You will be issued a different revalue code every time you revalue your smartcard.
